# MANDAKO X7

## THE WORLDS LARGEST LANDROLLER

The Mandako X7 is engineered for durability, efficiency, and ease of use, making it the ideal choice for large-scale farming operations. Constructed from high-quality North American steel, the X7 is built to withstand the toughest conditions. Equipped with Monarch cylinders, heavy-duty tires, and multiple axles, it ensures reliable operation and long-lasting performance. Its X-frame design evenly distributes torque pressure during turns, reducing machine stress and enhancing maneuverability in the field. With a 20' transport width, the X7 is easy to move between fields—often narrower than the tractors towing it—providing convenience without compromising on size. The extended hitch length further improves turning ability, making tight maneuvers easier and reducing stress on your equipment.

For farmers covering big acreage, the X7 Landroller is built to last, built for performance, and built for you!

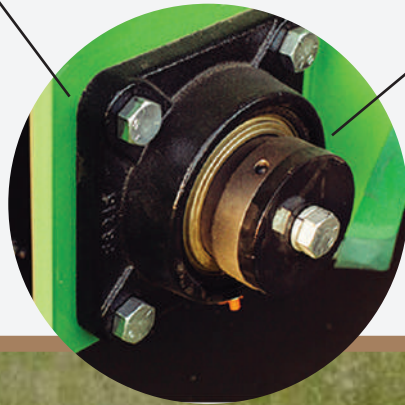

2" High Graphite Cast Knuckle

Industry Leading 3" Shaft with Concentric Support Plate

HD Solid Back Bearing Housing  
3" Triple Lip Seal Bearing

High Clearance HD Rear Axle

Patent Pending Fast Fold Axle

Hydraulic Floating Hitch

### SIZES AVAILABLE

88' | 94' | 100' | 106' | 112'

### WHY USE THE WORLDS LARGEST LANDROLLER?

- Unmatched Coverage: The widest landroller available, covering 112 feet in a single pass with true overlap on each drum section.
- Heavy-Duty Design: Engineered with reinforced steel and oversized bearings for maximum durability.
- Hydraulic Folding System: Effortless transport with a compact folded width for road travel.
- Superior Field Performance: Flattens clods, enhances seed-to-soil contact, and reduces equipment wear.
- Rock & Residue Management: Pushes down rocks and plant residue for a smoother, more efficient harvest.

- ### Features
- Self Aligning Wing Lock
  - HD 8-Bolt Hub
  - Fast Fold Axle
  - 8" x 4" x 1/2" & 3/8" Structural Tubing
  - High Clearance HD Rear Axle
  - Grade 50 Materials
  - 3" Drum Shaft & HD Bearing
  - 42" x 5/8" Diameter Drum (0.625")
  - IF320/70R15 Tires
  - LED Lights
  - Color Coded Hydraulic Handles
  - Hydraulic Floating Hitch
  - Category 5 Pintle Hitch
  - Hydraulic Frame Lock

- ### Options
- Mechanical Acre Counter
  - Available in Mandako Green or Black
