** USING THE CONVERSION CHART **

Step 1: Always remember to check acre counter reading before you start rolling.
IMPORTANT!! Write this number down!

Step 2: When finished rolling, calculate the difference from the beginning to end of the acre counter

Step 3: Multiply acre counter number (ending number minus starting number) with the number as associated on the chart above. Make sure to use the right land roller LENGTH and DRUM SIZE

Table: U		
Item	Part No.	Description
1	AA001001	Acre Counter w/Bracket: 36" Drum (560 rev/mile)
2	AA001002	Acre Counter w/Bracket: 42" Drum (480 rev/mile)
